DETAILED ACTION

This is in response to RCE and IDS filed on 2/12/07 in which claims 1-18 are pending. The applicant's amendments have been fully considered therefore this case is in condition for allowance. In addition the pending claims have been renumbered as 1-15, 17, 16 and 18.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior arts of record fail to anticipate or render obvious the following recited features: after each computation of bit decisions, examining computed bit decisions to determining whether said computation of bit decisions is to be iterated, wherein upon iteration of said computation of bit decision at least some of the bit decisions of the previous computation of bit decisions in addition to the samples under examination, in the computation of the bit decision as recited in claims 1, 5, 13 and 14. Wherein the channel equalizer comprises means for examining a number of samples defined at the time, decision means for computing bit decisions on the basis of said number of samples to find out transmitted symbols, and examining means for estimating the need for iterating the computation of the bit decisions, wherein upon iterating said computation of bit decisions, at least some of the bit decisions previously computed are arranged to be used in addition to the samples under examination at the time as recited in claims 15 and 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
